NOAS
SWEDEN®

COMPLETE SOLUTIONS FROM A LEADING MANUFACTURER

Noas Sweden started as a carpentry shop almost 25 years ago. Since then, we have developed into a leading turnkey supplier and producer of special interiors for hotels, restaurants, public buildings and offices. We are at your service for project management, design, production and service.

We work with all kinds of materials, but specialise in Solid Surface and wood. We are experts in interior fittings, and our passion is in helping our customers achieve the result they want within budget. Our strength lies in the combination of overall commitment and excellence.

Our premises in Tibro have everything needed to deliver quality and cost-effective solutions. We have a well-developed network in the Tibro region specifically created to streamline the production process and support us with specialist skills and resources in depth.

Noas Sweden was acquired by Storskogen AB in 2019, giving us even more opportunity to offer complete solutions within interior design for public buildings.

GoZee-appen gör broschyren levande

Utforska broschyren med GoZee-appen på en smartphone eller surfplatta och hitta 360° panorama, fotogallerier, cinemagrafier, direktåtkomst till webben och snap-videos via augmented reality.

GoZee: hur du kommer igång på 30 sekunder

1. Gå till App Store eller Google Play, skriv in "GoZee" i sökfältet och ladda ner appen till din smartphone eller surfplatta.
2. Öppna appen och använd den på sidorna med GoZee-ikonen.

WE BUILD ACCORDING TO YOUR SPECIFICATIONS

Our dedicated project managers will become your partners and problem-solvers from project start to end. Discussions with the project manager will lead to the optimum solution according to your own ideas in terms of actual installation and cost-effectiveness.

Only when you and your project manager agree on goals and requirements, will timescale and delivery be agreed.

FROM DRAWING AND VISUALISATION TO FINISHED PRODUCT

Noas produces at our own workshops, regardless of how demanding your project may be. Advanced CAD technology enables us to produce the truly unique. We work with all kinds of materials:

Solid Surface, wood, glass, metal, stone and textile. And we rarely see or accept that there are limits, only opportunities.

Noas Sweden believes quality and service are a given. What we deliver should meet (and preferably exceed!) your expectations. And if you need help even after delivery, for installation, storage and aftermarket parts for example, we are at your service.

”VERY
RESPONSIVE
AND DELIVER
A FANTASTIC
PRODUCT”

MAGNUS ÅHS, RAMBÖLL

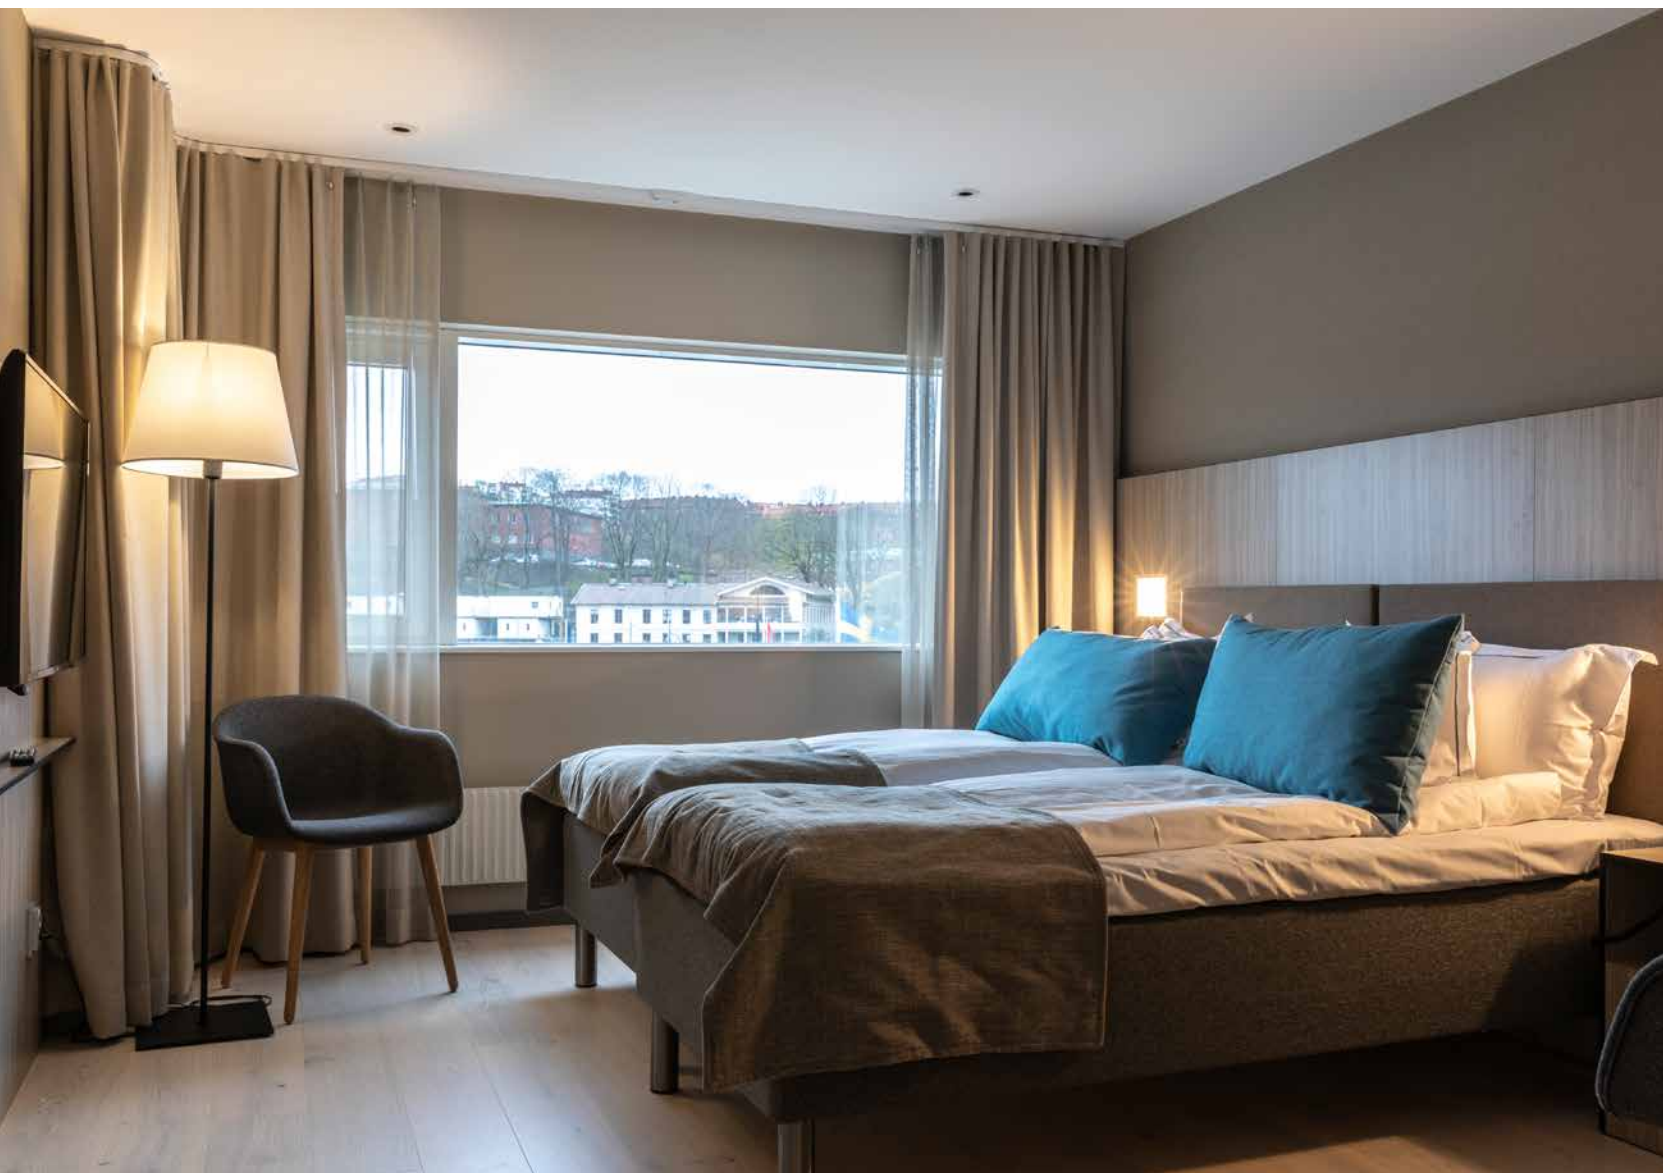

DETALJER SOM GÖR SKILLNAD

Allt är inte bara yta. Det är detaljerna under som skapar helheten som håller. Oavsett om det gäller ditt kök, ditt badrum – eller vad du än bygger. Och små detaljer gör stor skillnad – därför har vi över 5 000 detaljer som ger dig precis den yta du vill. Allt från knoppar, beslag och belysning till maskiner och verktyg som gör allt så mycket enklare. Och vår erfarenhet och vårt kunnande får du på köpet – i snart 100 år har vi hjälpt våra kunder att göra skillnad. Gå in på theofils.se och se själv!

HOTELS AND RESTAURANTS

Noas Sweden supplies custom interiors for hotels, in Sweden and abroad, large or small. We have extensive experience and know exactly what is required for a hotel room to work, look good and have the right atmosphere. Many welcoming, inviting receptions with associated storage facilities have been produced by us at Tibro, which have probably been installed somewhere near you and certainly many other places in the world.

Restaurants are another of our specialties, whether independent, in hotels or restaurant chains. Noas Sweden can produce and deliver everything from dining room furniture and other furnishings to fully customised kitchen solutions. Our expertise has led to long-term partnerships with everything from renowned interior designers, construction companies and concept restaurants to star restaurateurs with highly personal requirements and demands.

Vi på Glasmästar'n i Tibro är stolta över att kunna leverera alla speciallösningar inom glas till NOAS Sweden.

PUBLIC BUILDINGS AND RETAIL

Together with our partners, we furnish public buildings to meet every requirement for function, efficiency and comfort. Whether the job involves a conference room or an entire office, a reception or a waiting area, our commitment is always 100%.

Noas Sweden has the resources and capacity to create a highly personal shop or large department store – even with different concepts for each product group. We can build environments and functional interiors for every type of retail outlet in the most diverse styles, from classic to futuristic.

PRODUCTS THAT CAN WITHSTAND TOUGH TREATMENT

Our own products are designed for the tough demands of the public environment, especially with regard to function, hygiene and ease of cleaning, wear resistance and circular thinking.

Exclusivity in choice of materials, quality and design means products that will stand the test of time. The common denominators for all our products are surfaces and details in Solid Surface, preferably Dupont™ Corian®.

Every product is developed at the initiative of and together with users in health care, school and public spaces, in collaboration with Noas Sweden.

Wash basins, surgical sinks, Solid Surface worktops last for many years and are easy to clean and maintain.
