Material

DuPont™ Corian®

DuPont™ Corian® works everywhere. The material that architects and designers choose who specialize in school, restaurant, public spaces , offices and healthcare.

DuPont™ Corian® is a solid non-porous, homogeneous surfacing material .Corian are durable and hygienic and offer the unique ability to renew the surface from damage by polishingout any scratches or wear and tear without removal of the unit.

DuPont™ Corian® solid surface meets the high expectations of the most demanding school environments. With unlimited potential for surfaces in public spaces like schools and other public places, Corian® is:

Easy to clean and maintain. When properly cleaned, Corian® does not support the growth of mould and mildew.

LGA certified for hygienic properties (stability against bacteria and fungi according to European standard DIN EN ISO 846).

A nonporous surface with a smooth, seamless appearance.

Extremely durable, withstands tough shocks in trafficy environments that would otherwise have damaged other materials, such as porcelain, laminate or stainless steel.

Easily renewed and repaired.

GREENGUARD Certified® as low VOC-emitting material

Stain resistant

We are a part of DuPont™ Corian® Quality Network giving end customers the assurance that products meets all the tough requirements set by DuPont.

All products are developed in close cooperation with school environment professionals and suppliers.
